

# Resume

06-01-2026

Name : Yu Kiryu

## ■ Summary of Qualifications

Versatile Consultant with 5 years of experience across 10 cross-functional projects within Global consulting firms. Proven track record in both technical and business domains, including:

- ✓ SAP Consulting: End-to-end delivery of system migrations and greenfield implementations (Design to Go-live).
- ✓ Project Coordination / PMO: Partnered with Senior Management to conduct strategic research and translate complex specifications into structured project plans.
- ✓ Business Transformation: Optimized logistics workflows to improve operational efficiency. I bring a unique blend of technical depth and business process optimization skills.
- ✓ Vendor & Offshore Management: Led negotiations with external vendors and coordinated seamlessly with offshore teams (e.g., India and China) to ensure global project alignment.
- ✓ IT Infrastructure: Managed OS-layer operations and maintenance for large-scale manufacturing systems.

## ■ Employment History

01/2024 - 05/2025 EY Japan - SAP Consultant (Full-time)  
09/2021 - 12/2023 Kyndryl Japan - Senior Associate (Full-time)  
04/2020 - 08/2021 IBM Japan - Junior Associate (Full-time)  
04/2019 - 03/2020 Kyoto University - Teaching Assistant (Part-time)

Period	Project Overview & Responsibilities
03/2025 - 05/2025	<p>■ Internal SAP Operations &amp; Project Support</p> <p>Key Responsibilities:</p> <ul style="list-style-type: none"> <li>• <b>Cross-Functional Collaboration:</b> Partnered with multiple Managers and Senior Managers to conduct in-depth product specification research and strategic information gathering.</li> <li>• <b>Stakeholder Management:</b> Led negotiations with external vendors and coordinated seamlessly with offshore teams in India to ensure project alignment.</li> <li>• <b>Technical Documentation:</b> Authored and maintained high-quality project documentation and internal reporting materials.</li> <li>• <b>System Administration:</b> Managed the maintenance and optimization of the in-house SAP system to ensure operational stability.</li> <li>• <b>Project Continuity:</b> Provided critical follow-up support and resolved legacy issues from previous projects to maintain service excellence.</li> </ul>
06/2024 - 02/2025	<p>■ Food &amp; Beverage Manufacturer: HW/SW Refresh &amp; SAP HCM EHP6 Upgrade Support</p> <p>©Project Overview: Executed a large-scale system upgrade and hardware/software refresh for an existing SAP HCM system to ensure long-term stability and address the expiration of product maintenance support.</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Project Management (PMO):</b></li> </ul>

	<ul style="list-style-type: none"> <li>○ Developed the WBS and infrastructure team schedules.</li> <li>○ Managed task allocation and progress tracking to ensure timely delivery of milestones.</li> <li>• <b>SAP Basis &amp; Infrastructure:</b> <ul style="list-style-type: none"> <li>○ Conducted impact analysis for the Enhancement Pack (EHP) application on existing business processes.</li> <li>○ Spearheaded the SAP system roadmap development and provided quality assurance for system architecture and migration strategy documents.</li> <li>○ Supported server configuration design and environment setup, including database (MS SQL) installation.</li> <li>○ Executed the technical upgrade and data migration for the SAP landscape.</li> </ul> </li> <li>• <b>Support:</b> <ul style="list-style-type: none"> <li>○ Facilitated knowledge transfer and provided technical support to the maintenance and operations team to ensure a smooth transition.</li> </ul> </li> </ul>
04/2024	<p>■ Internal AI Solution Support</p> <p><b>Key Contributions:</b></p> <ul style="list-style-type: none"> <li>• <b>Cross-border Communication:</b> Served as an interpreter during strategic meetings with EY Malaysia, facilitating smooth communication and collaboration between regional teams.</li> <li>• <b>Documentation &amp; Collateral Development:</b> Authored and developed internal AI solution materials and technical documentation to promote AI adoption and knowledge sharing within the firm.</li> </ul>

03/2024 - 05/2024	<p>■ Education Industry: AWS Cloud Migration &amp; SAP ERP Infrastructure Implementation</p> <p>©Project Overview: Executed migration and greenfield implementation on AWS to replace an on-premises SAP environment. The project aimed to enhance system stability, reduce operational costs, and improve overall maintenance efficiency.</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Cloud Strategy &amp; Cost Management:</b> <ul style="list-style-type: none"> <li>○ Performed comprehensive cloud running cost simulations and developed preliminary budget estimates for the AWS environment.</li> <li>○ Provided strategic support for product selection to ensure compatibility and performance in the cloud-based system migration.</li> </ul> </li> <li>• <b>Systems Implementation &amp; Technical Execution:</b> <ul style="list-style-type: none"> <li>○ Spearheaded the end-to-end setup and configuration of the AWS infrastructure, SAP ECC, and HANA DB.</li> <li>○ Optimized the system landscape to leverage cloud-native scalability and reliability.</li> </ul> </li> <li>• <b>Operational Excellence &amp; Knowledge Transfer:</b> <ul style="list-style-type: none"> <li>○ Redesigned and optimized operational workflows and documentation to align with cloud-best practices.</li> <li>○ Conducted technical training sessions for end-users and facilitated a seamless knowledge transfer to the operations team.</li> </ul> </li> </ul>
01/2024 - 03/2024	<p>■ Manufacturing Industry: Supply Chain Optimization (U.S. Oil &amp; Gas)</p> <p>©Project Overview: Streamlined and optimized logistics processes for a major U.S.-based Oil &amp; Gas company to enhance operational efficiency and reduce supply chain bottlenecks.</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Process Diagnostic &amp; Benchmarking:</b></li> </ul>

	<ul style="list-style-type: none"> <li>○ Conducted comprehensive As-Is mapping of the end-to-end logistics chain through stakeholder interviews, operational data reviews, and visual workflow creation.</li> <li>○ Identified critical bottlenecks and inefficiencies by benchmarking current operations against industry's best practices.</li> <li>• <b>Strategic Recommendations:</b> <ul style="list-style-type: none"> <li>○ Formulated holistic improvement strategies across People, Process, and Technology dimensions to boost efficiency and enhance customer satisfaction within a complex logistics network.</li> </ul> </li> <li>• <b>Localization Support:</b> <ul style="list-style-type: none"> <li>○ Localized and translated global process flows into Japanese</li> </ul> </li> <li>• <b>Deliverable Management:</b> <ul style="list-style-type: none"> <li>○ Supported the Final Project Report, providing a definitive roadmap of findings and recommendations. This document currently serves as the client's strategic reference for ongoing and future system enhancements.</li> </ul> </li> </ul>
11/2023	<p>■ Manufacturing Industry: Cloud-to-Cloud System Migration (IBM Cloud to Microsoft Azure)</p> <p>©Project Overview: Participated in a large-scale strategic system migration from IBM Cloud to Microsoft Azure for a leading Japanese manufacturer to optimize cloud infrastructure and leverage Azure's ecosystem.</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Backup &amp; Recovery Architecture:</b> <ul style="list-style-type: none"> <li>○ Supported the Backup Strategy &amp; Design phase to ensure data integrity and system availability during and after the cross-cloud migration.</li> <li>○ Defined backup policies, retention periods, and recovery time objectives (RTO/RPO) aligned with the client's business continuity requirements.</li> </ul> </li> </ul>

	<ul style="list-style-type: none"> <li>• <b>Migration Planning:</b> <ul style="list-style-type: none"> <li>○ Provided technical advisory on infrastructure compatibility between IBM Cloud and Azure environments.</li> <li>○ Coordinated a smooth handover of daily tasks and project knowledge to the incoming colleague</li> </ul> </li> </ul>
09/2023 - 10/2023	<p>■ Manufacturing Industry: SAP Infrastructure Maintenance &amp; System Split</p> <p>©Project Overview: Supported a project for a major Japanese manufacturer involving SAP PI (Process Integration) system copy, upgrade, and a Dual-Stack Split to optimize system architecture.</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Technical Execution Support:</b> <ul style="list-style-type: none"> <li>○ Assisted the lead consultant in the hands-on execution of the Dual-Stack Split and SAP system copy procedures.</li> <li>○ Supported the technical upgrade process, ensuring tasks were completed according to the project timeline.</li> </ul> </li> <li>• <b>Documentation &amp; Quality Control:</b> <ul style="list-style-type: none"> <li>○ Authored detailed step-by-step technical manuals and work instructions to ensure the accuracy and safety of system operations.</li> <li>○ Maintained rigorous documentation of system logs and configuration changes during the project lifecycle.</li> </ul> </li> </ul>
04/2023 - 06/2023	<p>■ Manufacturing: Windows System Implementation</p> <p>©Project Overview: Provided technical support for the deployment of a new Windows Server environment within a VMware Cloud on AWS architecture for a leading Japanese manufacturer.</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Environment Provisioning Support:</b> <ul style="list-style-type: none"> <li>○ Collaborated with the primary consultant to execute the setup and configuration of Windows system instances.</li> <li>○ Assisted in the baseline configuration and verification of</li> </ul> </li> </ul>

	<p>the server environment to ensure alignment with project specifications.</p> <ul style="list-style-type: none"> <li>• <b>Technical Execution:</b> <ul style="list-style-type: none"> <li>○ Performed hands-on configuration tasks under the guidance of the lead engineer, focusing on stable system initialization.</li> <li>○ Supported the documentation of technical settings and environment parameters for post-implementation maintenance.</li> </ul> </li> </ul>
<p>01/2023 - 08/2023</p>	<p>■ Manufacturing: SAP S/4HANA Conversion (Sandbox environment)</p> <p>©Project Overview: Participated in a large-scale system transformation project for a major manufacturer, focusing on the technical conversion from SAP ERP to SAP S/4HANA.</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Conversion Execution Support:</b> <ul style="list-style-type: none"> <li>○ Assisted in the technical execution of the S/4HANA conversion process, including Support Package Stack applications and system upgrades.</li> <li>○ Supported hands-on Basis activities under the supervision of the lead consultant to ensure a stable transition to the S/4HANA environment.</li> </ul> </li> <li>• <b>System Optimization &amp; Verification:</b> <ul style="list-style-type: none"> <li>○ Conducted post-conversion technical checks and verification tasks to maintain system integrity.</li> <li>○ Provided logistical and technical support during the critical cutover phases, contributing to the overall reliability of the system upgrade.</li> </ul> </li> </ul>
<p>05/2022 - 06/2022</p>	<p>■ Internal Training Environment: SAP ERP &amp; S/4HANA Implementation</p> <p>©Project Overview: Established an internal training landscape by deploying SAP ERP and S/4HANA systems on Azure Cloud, providing a sandbox environment for consultant skill development.</p>

	<p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Cloud Environment Provisioning:</b> <ul style="list-style-type: none"> <li>○ Assisted in the end-to-end setup of the Azure infrastructure required for SAP hosting.</li> <li>○ Performed the installation and initial configuration of SAP ERP and S/4HANA instances for internal training purposes.</li> </ul> </li> <li>• <b>System Maintenance:</b> <ul style="list-style-type: none"> <li>○ Managed basic administrative tasks to ensure the availability and stability of the training environment.</li> <li>○ Developed simplified operation manuals to help other internal users navigate the newly established system.</li> </ul> </li> </ul>
<p>04/2021 - 12/2022</p>	<p>■ Manufacturing: Infrastructure Operations &amp; Automation</p> <p>©Project Overview: Managed comprehensive system operations for a major manufacturer, focusing on incident/issue management and operational efficiency across multi-cloud environments (VMware, IBM Cloud, and AWS).</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Operational Automation:</b> <ul style="list-style-type: none"> <li>○ Led the implementation and adoption of Red Hat Ansible Tower to automate routine operational tasks, significantly improving workflow efficiency within the project.</li> <li>○ Managed daily operations and maintenance of automation scripts to ensure system reliability.</li> </ul> </li> <li>• <b>Incident &amp; Infrastructure Management:</b> <ul style="list-style-type: none"> <li>○ Monitored daily system alerts and managed troubleshooting for complex infrastructure issues across a multi-cloud landscape.</li> <li>○ Developed and maintained standardized operating procedures for incident response.</li> </ul> </li> <li>• <b>Knowledge Sharing &amp; Enablement:</b> <ul style="list-style-type: none"> <li>○ Conducted technical training sessions for project members to facilitate the adoption of automation tools.</li> <li>○ Managed the seamless transition and handover of operational knowledge to ensure continuous service</li> </ul> </li> </ul>

	delivery.
07/2020 - 03/2023	<p>■ Manufacturing: Multi-National Infrastructure Operations &amp; Service Management</p> <p>©Project Overview: Managed system operations and incident management for a major Japanese manufacturer, ensuring the stability of critical infrastructure across Japanese and Singaporean entities.</p> <p>Key Responsibilities &amp; Achievements:</p> <ul style="list-style-type: none"> <li>• <b>Infrastructure Operations &amp; Technical Execution:</b> <ul style="list-style-type: none"> <li>○ Performed hands-on technical tasks and weekly alert responses for AIX (UNIX) and Linux systems.</li> <li>○ Executed service requests and system maintenance to ensure 24/7 operational continuity.</li> </ul> </li> <li>• <b>Global Stakeholder Management &amp; Reporting:</b> <ul style="list-style-type: none"> <li>○ Lead Incident Reporting: Conducted weekly incident management briefings for the Japanese client entity.</li> <li>○ Strategic Analysis: Delivered monthly operational analysis and performance reports to the client's Singapore-based entity.</li> </ul> </li> <li>• <b>Knowledge Management &amp; Vendor Coordination:</b> <ul style="list-style-type: none"> <li>○ Supported Standard Operating Procedures and technical manuals for infrastructure maintenance.</li> <li>○ Cross-Border Enablement: Led training sessions and knowledge transfer initiatives for dispatch staff and offshore delivery teams, including IBM and Kyndryl members in India.</li> </ul> </li> </ul>
04/2020 - 06/2020	Onboarding

## ■ Certification

- ❖ AI in Supply Chain Forecasting and Risk Management (01/2026)
- ❖ Microsoft Certified: Azure AI Fundamentals (12/2025)
- ❖ GenAI for Supply Chain Optimization (12/2025)
- ❖ Google Foundations of User Experience (UX) Design (12/2025)
- ❖ SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Private Edition (03/2024)
- ❖ SAP Certified Application Associate - Sourcing and Procurement (03/2023)
- ❖ SAP Certified Consultant - SAP S/4HANA System Administration (06/2022)
- ❖ ERE (Economics Research Examination) - [Rank S] (12/2017)
- ❖ TOEFL iBT: [95] (07/2016)

## ■ Education

04/2018 - 03/2020

Business Administration - Kyoto University, Japan (Master)

09/2013.09 - 06/2017

Japanese - Shandong University of Political Science and Law, China (Bachelor)  
Economics (Self-Study)

## ■ Language

English: Full Professional Proficiency (TOEFL iBT: 95 / CEFR C1 equivalent)

Japanese: Near-native

Chinese: Native

Danish: Beginner, currently pursuing further studies.
